TO CALL MORE MEN

IT WILL TAKE OVER 1,000 TO SECURE COUNTY'S QUOTA OF 202.

43 ACCEPTED YESTERDAY

Out of 125 Men Examined, 28 of These File Claims for Exemption—15 File No Claims.

First Day's Results.

Number of men examined	125
Number of men accepted	43
Accepted men who filed claims	28
Accepted men who filed no claims	15

If the first day's examination of men called under the draft is a true proportion, it will take over 1,000 men to secure the county quota of 202 men. This much is at least certain, that more men will have to be called in addition to the first 425 men summoned for examinations this week.

Of the men rejected, twenty-nine were for being underweight, and thirteen on account of flat feet.

These examinations will be continued until the quotas are filled with 10 per cent additional to allow for rejection after the men reach the mobilization camps. After the examination tomorrow, the local board will check up the list and then summon more men for examination next week.

Examinations conducted today indicated that the percentage of available men to be obtained will be no greater than yesterday. Nearly every claim for exemption yesterday was on the grounds that the applicant was married.

Of course, it should not be taken for granted that all who file claims will be exempted. Each case will be gone into thoroughly and any doubts as to the man's claims will be considered in favor of the government.

Because a man is married will not be regarded as prima facie grounds for exemption. It will have to be shown that his wife is dependent upon his actual labor for support. The same, of course, will apply to all cases of dependent relatives.

The few who have filed claims for exemption on occupational grounds will have to present their cases to the district boards, which also will hear cases appealed from the district boards.

One hundred and forty men were ordered to appear yesterday. Fifteen failed to appear, some of the men having enlisted and a few took their examinations away from here.

Prosecuting Attorney Sawyers received notification of his appointment to take appeals of the county board.

The following are the men who appeared yesterday and the result of their examination:

Duett F. Clement, Quitman; accepted. Files claims for discharge; wife and child.

Roy E. Wedge, Burlington Junction; rejected. Flat feet and other defects.

James William Keith, Maryville; accepted. No claims were filed.

Claude H. Carroll, Sheridan; rejected. Light weight.

Walter G .Howard, Skidmore; accepted Files claims for discharge; wife.

Cecil Ledrue roctor, Hopkins; accepted. Files claims for discharge; wife.

John Henry McCann, Ravenwood; rejected. Too light and poor chest expansion.

Carl Fisher, Maryville; accepted. No claims filed.

John M. Gates, Maryville; rejected. Under weight.

Ozero Edgar Bales, Maryville; accepted Files claims for discharge; dependent wife.

Clarence Harvey Williams, Burlington Junction; accepted. Files claims; dependent wife and position on the C. G. W.

Bernard Ignatus Durbin, Conception Junction; rejected. Flat feet and other defects.

Fred B. Mast, Skidmore; rejected. Under weight.

VAN CLEVE RETURNS

EDITOR DEMOCRAT-FORUM TELLS OF THE CONGRESS.

MOST IMPORTANT SESSION

Uncle Sam is Now Spending More Than $27,000,000 A Day For War—Many Important Bills Up.

W. C. Van Cleve, editor of The Democrat-Forum, returned this morning from Washington, where he has been since last December attending congress. He is home on a vacation and will return to Washington in a few weeks.

Mr. Van Cleve in speaking of this session of congress, said:

"Having completed the program agreed upon early in the special session, the House of Representatives was able last Saturday to arrange a series of three day adjournments while waiting for the Senate to pass the war revenue bill. This enabled members and certain employees to go home for a short time and renew acquaintance with their personal affairs.

"This session of Congress has been a busy one and a wonderfully important one. Many new chapters have been written into American history, and into the world's history for that matter. No Congress has ever applied itself more energetically or discharged its obligations with greater promptitude.

"Early in the session, before the people generally understood fully the enormity of our undertaking in connection with the world's war, there was some impatience manifested for quicker action but the fact is that Congress has made a remarkable record for industry, excelling anything heretofore accomplished by it in scope or importance.

"During the period of 45 working days from April 26 to May 23, eleven great bills were passed. These include the sundry civil, army appropriation, and general army and navy deficiency bills, the latter being the largest single appropriation bill in the history of the world; the bond issue bill, the selective conscription bill, the bill relating to interned ships, the bill increasing the navy and marine corps, the espionage bill, the bill increasing the power of the Interstate Commerce Commission and the bill amending the Federal reserve act.

"In addition to these the war revenue bills, the greatest tax bill in history, the food survey bill, the food control bill, the rivers and harbors appropriation bill, the embargo act, the bill known as the "trading with the enemy act," the bill appropriating $640,000,000 for the manufacture of aeroplanes and the creation of an air fleet, a $3,000,000 deficiency bill for the Senate, and many others have been passed by the House and many of them also by the Senate.

"Most of them were revolutionary in character and reached to the fundamentals of government. An effort has been made to develop the war power as rapidly as possible without breaking down the bulwarks of liberty and equality in this country. To develop our military strength in times like these, in harmony with the rights of the people, is a task that calls for study and statesmanship. The most impatient individuals are frequently those who would suffer most from haste and ill considered legislation.

"The Senate is more deliberative than the House but its tedious discussions frequently result in developing some radical defects, as in the federal reserve banking act, that have escaped the most vigilant in the House. The Senate is expected to agree to the food bills this week and to begin consideration of the war tax.

"Upon the time consumed on this bill depends the final adjournment of Congress. The bill will be discussed from two to four weeks in the Senate and, when it returns to the House, two or more weeks will be required in conference. The bill has been reconstructed by the finance committee of the Senate and many changes have been made in the original House bill that will not be accepted by Chairman Kitchin and his followers in the House.

"When will the war end? Ask Russia. Ask Austria. Russia is the great question mark among the Allies. Austria and Turkey are tired but Germany is strong and full of fight. Some important developments are believed

PLANS CHAUTAUQUA

IT IS PRACTICALLY ASSURED ONE WILL BE HELD NEXT YEAR

MANY GUARANTORS SIGN

Over $1,000 Worth of Tickets Pledged For—The Closing Day of the Chautauqua Yesterday.

A Chautauqua for Maryville next year by the Redpath-Vawter system is practically assured as twenty-five had signed the list of guarantors up to noon today. About 500 tickets have been pledged for and it is only necessary to dispose of 250 more tickets.

According to the contract with the company, the guarantors are liable up to $10 to make good any deficit. The signers today were: E. M. Claypool, C. P. Schmidt, E. E. Williams, V. W. Keene, John Murrin, D. D. Bagley, E. H. Bainum, Linville Hotel, E. C. Moberly, James Todd, F. P. Robinson, J. F. Hull, L. L. Maier, F. W. White, S. H. Kemp, Dr. C. T. Bell, G. B. Roseberry, P. O. Landon, Price & McNeal, James B. Robinson, Rev. C. Emerson Miller, Alderman-Yehle, Joseph Jackson, Sr., G. B. Holmes, Sewell Auto company.

Efforts will be made to get at least forty or fifty guarantors. The contract is in the hands of Secretary Claypool.

The Chautauqua next year will also be held at the Normal park. By a big vote, the people at last night's entertainment favored the park as the location.

Harry D. Kies, who was superintendent of the Chautauqua here, left this morning for Princeton, where he will superintend one there. Miss Mabel McGill left for Mt. Ayr, Ia., and Nelson Quan, property man, went to Macon.

This year's Chautauqua did not cost the guarantors a cent.

The committee received about $130 from the company for the sale of tickets and $60 from concessions. The expenses of the committee such as water, a watchman, lights and other incidentals will amount to probably over $100. A balance of probably $50 will be left in the fund to apply on next year's assembly.

Closing Day Program.

The 1917 engagement of the Redpath-Vawter Chautauqua closed last night with the Hawaiian night, one of the most popular programs of the week. The crowd was the largest even than that which attended the concerts given by Kryl's band.

The program was given by the Royal Hawaiian troupe of native musicians and by Miss Mildred Leo Clemens. The Hawaiians gave some of the native music, but the numbers that received most applause were of the ragtime "made in America" brand. An exceedingly popular part of the program was the playing on the gui-

TEACHERS TO MEET

COUNTY MEETING TO BE HELD AUGUST 31 AND SEPTEMBER 1.

SCHOOL TO OPEN SEPT. 3

All of the Rural Schools and Nearly All of the Towns Will Commence School Year Then.

A county teachers meeting to outline plans for the coming school year will be held at the high school building on Friday and Saturday, Aug. 31 and Sept. 1. All the teachers who are to teach in this county are required to attend this meeting.

W. M. Oakerson of the state department of education at Jefferson City will be the main speaker at the meeting. Supplies will be distributed at the meeting to the teachers.

The rural schools of the county have been requested to open on Monday, September 3, by County Superintendent Cooper. Mr. Cooper suggests that if any of the pupils desire to attend the fair that week that school could be dismissed Thursday and Friday and that these two days could be made up during the year. The reason for the opening of school at this time is to complete the first semester before the Christmas vacation. There are one hundred sixty three rural schools in the county.

Nearly all of the schools in the towns of the county will also open on September 3. The Maryville schools will open at that time and will dismiss on Thursday and Friday, Sept. 6 and 7 for the county fair.

A SOLDIER'S PRAYER.

Lord, give me this day my manhood to stand straight. Lead me into battle with a clean heart and a sober mind. Deliver me from blind hate and wanton ruthlessness; give me only that white anger that leads righteousness to battle. Help me to preserve the idea of my forefathers. Let me keep my mother's face before me and the feel of my father's hand upon my shoulder; and strengthen them against the day when I shall return no more. Amen.—Harold MacGrath, in Providence Tribune.

I believe in the registration of women because first, last, and all the time, I am an advocate of preparedness. The mere act of registering will not fit us for untried positions, but because of this act we will try harder to fit ourselves for usefulness.

I believe also that the fact that we stand ready to serve will stiffen the backbone of our sons, husbands, and brothers who may be called to do the real fighting.

—MRS. S. E. FARMER.

Women and Patriotism.

(This article was contributed by a prominent Nodaway county woman. We want others like it).

We women here in the States have a very high standard to measure up to in meeting that laid down for us by the women of our Allies, and it must be our task to prepare and to perform, to take our place rightly and equally with them.

We want to promote peace through preparedness, to be abler to withstand aggression through intelligent self defense and to be able to help our country, in case of need, by efficient service.

It has been made plain that in this crisis when women are being given an opportunity for service such as has never been known before there must be no "slackers." It behooves each and every one of us to lay aside pet schemes and fads and concentrate on our greatest aim to work together toward that aim.

Two cards will be given you, the Service card and the Hoover Conservation pledge. You should fill out both, and that's all there is to it except to remember in answering that the things Uncle Sam wants to find out are what kind of work you are doing, what kind of work you are willing to do, and how much of your extra time you could give to war service.

It is your duty to register because women control food consumption, and it is the nation in which food lasts longest that is going to win the war. You should register, also, because it may mean an opportunity for you to change your work for the better — there are going to be many new good jobs for women before the war is much older. Then, too, we must show the country that Maryville women are no less patriotic than Maryville men or than the women of other towns. Therefore, we should make a good showing Saturday.

Nothing will happen to you if you register; that is, nothing beyond our control. You may have an opportunity to serve your country in the manner for which you have signed, you may get a chance to join classes in war service work, but you will be forced to do nothing.

—ANXIOUS TO SERVE.

The Nishnabotna drainage district has finished a big job of ditching and will either sell or lease their machine or keep it for further work. The ditches constructed in this district this year certainly paid for themselves on the occasion of the last big rain, where it was estimated that 11 inches of rain fell in 24 hours. Practically all of the water was off in three or four days when, old residents, say, that without ditches much of the water would yet remain on the farms. The crops on the Missouri bottom this year in this district, while not the best, are probably worth more than any crop ever raised there previously.—Rock Port correspondent in Tarkio Avalanche.

Seeing northwest Missouri consisted mostly of hitting the high places and required fifteen stitches to repair the damage for a Topeka man near Tarkio last week. Bars of Sousa's "Stars and Stripes Forever" march and other band music and familiar tunes. The dancing of two members of the troupe was also very popular.

The second part of the program was the illustrated lecture on "Rambling Through Paradise-Hawaii," by Miss Clemens. The lecture was well delivered and well received, and the pictures were beautiful. Something unusual in the way of motion pictures were those shown of a volcano in action.

The afternoon program consisted of music by the Hawaiians and a lecture by Hervey McCowan on "Kings and Queens—Crowned and Uncrowned." The lecture was well phrased and well illustrated, but Mr. McCowan is by no means an orator and many in the audience wre disappointed. The central idea of the address was that men and women are the real kings and queens of the world, should treat themselves as such, and should be so considered by others. He emphasized the maxim that man gets out of life just what he puts into it

"The war is now costing the chief belligerents more than $142,000,000 per day or $6,000,000 per hour including the night time and Sundays. Uncle Sam has hardly begun to load his rifles but is already spending more than $27,000,000 per day. A few days ago Congress appropriated $640,000,000 for an aeroplane fleet. A few years ago that amount was sufficient to pay all the running expenses of the government for a whole year and yet the bill passed the House in two hours and the Senate almost as quickly, and, in my judgment, it was the best day's work this Congress has done."

BAND IS STILL IN ST. JOSEPH

Concerts Given at Lake Contrary Monday and Tuesday Nights—Will Leave in A Few Days.

The Fourth Regiment band is still in St. Joseph today and it is not known at this time just when they will entrain for Camp Clark at Nevada. The delay is caused by the failure of supplies to arrive there. The supply company of the Fourth was ordered to proceed to Nevada last night.

A band concert by the regimental band and guard mount was given this morning at the Central high school campus in that city. The band also gave concerts at Lake Contrary Monday and Tuesday nights. The following is what the News-Press says about Monday's concert.

A goodly number of persons went to Lake Contrary Park last night to hear the concert by the Fourth regiment band, notwithstanding the clouds and the cool atmosphere.

The first part of the program was listened to with close attention and each number was enthusiastically applauded. Harold E. Maulding is the leader, and he was highly complimented by the crowd last night. About the time the intermission was reached drops of rain began to fall and soon the water was coming down at a lively rate. Everybody hurried for the trolley cars, and the park was soon deserted.

The band boys are quartered in the gymnasium of the high school building.

LACK OF EQUIPMENT

Has Held Up Indefinitely Mobilization of the Missouri National Guard.

Special to The Democrat-Forum.

Nevada, Mo., Aug. 8.—Lack of tentage and other equipment has held up indefinitely mobilization of the Missouri National Guard from their home stations to the state concentration camp here. Officers expected militiamen to begin to arrie here last Monday but inability of the war department to furnish equipment halted this.

"It is impossible to say when the necessary equipment will be received," said Brig. Gen. Harvey C. Clark, commanding the Missouri Guard. "Until we are given definite information the various units will not be moved from their home stations."

A special train schedule for troops has been worked out by Major Adams and the War Board of the Missouri Pacific railroad. Each unit will detrain at the camp and march to its assigned location in the tent city in the same order in which it entrained for Nevada. This is expected greatly to expedite establishment of the camp.

After Coal Prices.

Special to The Democrat-Forum.

Chicago, Aug. 8.—Half the governors of the sixteen middle western states today had accepted the invitation of the Illinois Council of Defense to attend or send a representative to a conference to be held here August 16, to adopt some concerted action to reduce coal prices. Among the governors who accepted were Governor Gardner of Missouri and Governor Capper of Kansas.

John G. Whitmer has just sold 1,000 bushels of corn at $2.15 a bushel—$10.75 a barrel. That is the highest price that corn has ever brought in Missouri, so far as the writer has been able to ascertain. — Richmond Missourian.

SICK WOMAN HAD CRYING SPELLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Enhaut, Pa.—"I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother 'I guess I will have to die as there is no help for me.' She got me one of your little books and my husband said I should try one bottle. I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work."—Mrs. AUGUSTUS BAUGHMAN, Box 86, Enhaut, Pa.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

TAKE nothing for granted. The cup of failure is waiting for the man who is always taking things for granted

He trusts everyone but himself.

Few things just "turn up," but are brought about by the ingenuity and cleverness of someone.

Take nothing for granted, a bank account will not "turn up," you must give it a start and then back it up.

TO CALL MORE MEN

IT WILL TAKE OVER 1,000 TO SECURE COUNTY'S QUOTA OF 202.

43 ACCEPTED YESTERDAY

Out of 125 Men Examined, 28 of These File Claims for Exemption—15 File No Claims.

First Day's Results.

Number of men examined	125
Number of men accepted	43
Accepted men who filed claims	28
Accepted men who filed no claims	15

If the first day's examination of men called under the draft is a true proportion, it will take over 1,000 men to secure the county quota of 202 men. This much is at least certain, that more men will have to be called in addition to the first 425 men summoned for examinations this week.

Of the men rejected, twenty-nine were for being underweight, and thirteen on account of flat feet.

These examinations will be continued until the quotas are filled with 10 per cent additional to allow for rejection after the men reach the mobilization camps. After the examination tomorrow, the local board will check up the list and then summon more men for examination next week.

Examinations conducted today indicated that the percentage of available men to be obtained will be no greater than yesterday. Nearly every claim for exemption yesterday was on the grounds that the applicant was married.

Of course, it should not be taken for granted that all who file claims will be exempted. Each case will be gone into thoroughly and any doubts as to the man's claims will be considered in favor of the government.

Because a man is married will not be regarded as prima facie grounds for exemption. It will have to be shown that his wife is dependent upon his actual labor for support. The same, of course, will apply to all cases of dependent relatives.

The few who have filed claims for exemption on occupational grounds will have to present their cases to the district boards, which also will hear cases appealed from the district boards.

One hundred and forty men were ordered to appear yesterday. Fifteen failed to appear, some of the men having enlisted and a few took their examinations away from here.

Prosecuting Attorney Sawyers received notification of his appointment to take appeals of the county board.

The following are the men who appeared yesterday and the result of their examination:

Duett F. Clement, Quitman; accepted. Files claims for discharge; wife and child.

Roy E. Wedge, Burlington Junction; rejected. Flat feet and other defects.

James William Keith, Maryville; accepted. No claims were filed.

Claude H. Carroll, Sheridan; rejected. Light weight.

Walter G Howard, Skidmore; accepted Files claims for discharge; wife.

Cecil Ledrue roctor, Hopkins; accepted. Files claims for discharge; wife.

John Henry McCann, Ravenwood; rejected. Too light and poor chest expansion.

Carl Fisher, Maryville; accepted. No claims filed.

John M. Gates, Maryville; rejected. Under weight.

Ozero Edgar Bales, Maryville; accepted Files claims for discharge; dependent wife.

Clarence Harvey Williams, Burlington Junction; accepted. Files claims; dependent wife and position on the C. G. W.

Bernard Ignatus Durbin, Conception Junction; rejected. Flat feet and other defects.

Fred B. Mast, Skidmore; rejected. Under weight.

Clarence Edwin Headrick, Burlington Junction; rejected. Under weight.

Arthur Baysinger, Ravenwood; accepted. No claims.

Ernest Richerd Cox, Maryville; accepted. No claims.

William Benjamin Whitney, Maryville; rejected. Rupture.

VAN CLEVE RETURNS

EDITOR DEMOCRAT-FORUM TELLS OF THE CONGRESS.

MOST IMPORTANT SESSION

Uncle Sam is Now Spending More Than $27,000,000 A Day For War—Many Important Bills Up.

W. C. Van Cleve, editor of The Democrat-Forum, returned this morning from Washington, where he has been since last December attending congress. He is home on a vacation and will return to Washington in a few weeks.

Mr. Van Cleve in speaking of this session of congress, said:

"Having completed the program agreed upon early in the special session, the House of Representatives was able last Saturday to arrange a series of three day adjournments while waiting for the Senate to pass the war revenue bill. This enabled members and certain employees to go home for a short time and renew acquaintance with their personal affairs.

"This session of Congress has been a busy one and a wonderfully important one. Many new chapters have been written into American history, and into the world's history for that matter. No Congress has ever applied itself more energetically or discharged its obligations with greater promptitude.

"Early in the session, before the people generally understood fully the enormity of our undertaking in connection with the world's war, there was some impatience manifested for quicker action but the fact is that Congress has made a remarkable record for industry, excelling anything heretofore accomplished by it in scope or importance.

"During the period of 45 working days from April 26 to May 23, eleven great bills were passed. These include the sundry civil, army appropriation, and general army and navy deficiency bills, the latter being the largest single appropriation bill in the history of the world; the bond issue bill, the selective conscription bill, the bill relating to interned ships, the bill increasing the navy and marine corps, the espionage bill, the bill increasing the power of the Interstate Commerce Commission and the bill amending the Federal reserve act.

"In addition to these the war revenue bills, the greatest tax bill in history, the food survey bill, the food control bill, the rivers and harbors appropriation bill, the embargo act, the bill known as the "trading with the enemy act," the bill appropriating $640,000,000 for the manufacture of aeroplanes and the creation of an air fleet, a $3,000,000 deficiency bill for the Senate, and many others have been passed by the House and many of them also by the Senate.

"Most of them were revolutionary in character and reached to the fundamentals of government. An effort has been made to develop the war power as rapidly as possible without breaking down the bulwarks of liberty and equality in this country. To develop our military strength in times like these, in harmony with the rights of the people, is a task that calls for study and statesmanship. The most impatient individuals are frequently those who would suffer most from haste and ill considered legislation.

"The Senate is more deliberative than the House but its tedious discussions frequently result in developing some radical defects, as in the federal reserve banking act, that have escaped the most vigilant in the House. The Senate is expected to agree to the food bills this week and to begin consideration of the war tax.

"Upon the time consumed on this bill depends the final adjournment of Congress. The bill will be discussed from two to four weeks in the Senate and, when it returns to the House, two or more weeks will be required in conference. The bill has been reconstructed by the finance committee of the Senate and many changes have been made in the original House bill that will not be accepted by Chairman Kitchin and his followers in the House.

"When will the war end? Ask Russia. Ask Austria. Russia is the great question mark among the Allies. Austria and Turkey are tired but Germany is strong and full of fight. Some important developments are believed

PLANS CHAUTAUQUA

IT IS PRACTICALLY ASSURED ONE WILL BE HELD NEXT YEAR

MANY GUARANTORS SIGN

Over $1,000 Worth of Tickets Pledged For—The Closing Day of the Chautauqua Yesterday.

A Chautauqua for Maryville next year by the Redpath-Vawter system is practically assured as twenty-five had signed the list of guarantors up to noon today. About 500 tickets have been pledged for and it is only necessary to dispose of 250 more tickets.

According to the contract with the company, the guarantors are liable up to $10 to make good any deficit. The signers today were: E. M. Claypool, C. P. Schmidt, E. E. Williams, V. W. Keene, John Murrin, D. D. Bagley, E. H. Bainum, Linville Hotel, E. C. Moberly, James Todd, F. P. Robinson, J. F. Hull, L. L. Maier, F. W. White, S. H. Kemp, Dr. C. T. Bell, G. B. Roseberry, P. O. Landon, Price & McNeal, James B. Robinson, Rev. C. Emerson Miller, Alderman-Yehle, Joseph Jackson, Sr., G. B. Holmes, Sewell Auto company.

Efforts will be made to get at least forty or fifty guarantors. The contract is in the hands of Secretary Claypool.

The Chautauqua next year will also be held at the Normal park. By a big vote, the people at last night's entertainment favored the park as the location.

Harry D. Kies, who was superintendent of the Chautauqua here, left this morning for Princeton, where he will superintend one there. Miss Mabel McGill left for Mt. Ayr, Ia., and Nelson Quan, property man, went to Macon.

This year's Chautauqua did not cost the guarantors a cent.

The committee received about $130 from the company for the sale of tickets and $60 from concessions. The expenses of the committee such as water, a watchman, lights and other incidentals will amount to probably over $100. A balance of probably $50 will be left in the fund to apply on next year's assembly.

Closing Day Program.

The 1917 engagement of the Redpath-Vawter Chautauqua closed last night with the Hawaiian night, one of the most popular programs of the week. The crowd was the largest even than that which attended the concerts given by Kryl's band.

The program was given by the Royal Hawaiian troupe of native musicians and by Miss Mildred Leo Clemens. The Hawaiians gave some of the native music, but the numbers that received most applause were of the ragtime "made in America" brand. An exceedingly popular part of the program was the playing on the gui-

TEACHERS TO MEET

COUNTY MEETING TO BE HELD AUGUST 31 AND SEPTEMBER 1.

SCHOOL TO OPEN SEPT. 3

All of the Rural Schools and Nearly All of the Towns Will Commence School Year Then.

A county teachers meeting to outline plans for the coming school year will be held at the high school building on Friday and Saturday, Aug. 31 and Sept. 1. All the teachers who are to teach in this county are required to attend this meeting.

W. M. Oakerson of the state department of education at Jefferson City will be the main speaker at the meeting. Supplies will be distributed at the meeting to the teachers.

The rural schools of the county have been requested to open on Monday, September 3, by County Superintendent Cooper. Mr. Cooper suggests that if any of the pupils desire to attend the fair that week that school could be dismissed Thursday and Friday and that these two days could be made up during the year. The reason for the opening of school at this time is to complete the first semester before the Christmas vacation. There are one hundred sixty three rural schools in the county.

Nearly all of the schools in the towns of the county will also open on September 3. The Maryville schools will open at that time and will dismiss on Thursday and Friday, Sept. 6 and 7 for the county fair.

Lord, give me this day my manhood to stand straight. Lead me into battle with a clean heart and a sober mind. Let me keep my mother's face before me and the feel of my father's hand upon my shoulder; and strengthen them against the day when I shall return no more. Amen.—Harold MacGrath, in Providence Tribune.

I believe in the registration of women because first, last, and all the time, I am an advocate of preparedness. The mere act of registering will not fit us for untried positions, but because of this act we will try harder to fit ourselves for usefulness.

I believe also that the fact that we stand ready to serve will stiffen the backbone of our sons, husbands, and brothers who may be called to do the real fighting.

—MRS. S. E. FARMER.

Women and Patriotism.

(This article was contributed by a prominent Nodaway county woman. We want others like it).

We women here in the States have a very high standard to measure up to in meeting that laid down for us by the women of our Allies, and it must be our task to prepare and to perform, to take our place rightly and equally with them.

We want to promote peace through preparedness, to be abler to withstand aggression through intelligent self defense and to be able to help our country, in case of need, by efficient service.

It has been made plain that in this crisis when women are being given an opportunity for service such as has never been known before there must be no "slackers." It behooves each and every one of us to lay aside pet schemes and fads and concentrate on our greatest aim to work together toward that aim.

Two cards will be given you, the Service card and the Hoover Conservation pledge. You should fill out both, and that's all there is to it except to remember in answering that the things Uncle Sam wants to find out are what kind of work you are doing, what kind of work you are willing to do, and how much of your extra time you could give to war service.

It is your duty to register because women control food consumption, and it is the nation in which food lasts longest that is going to win the war. You should register, also, because it may mean an opportunity for you to change your work for the better — there are going to be many new good jobs for women before the war is much older. Then, too, we must show the country that Maryville women are no less patriotic than Maryville men or than the women of other towns. Therefore, we should make a good showing Saturday.

Nothing will happen to you if you register; that is, nothing beyond our control. You may have an opportunity to serve your country in the manner for which you have signed, you may get a chance to join classes in war service work, but you will be forced to do nothing.

—ANXIOUS TO SERVE.

The Nishnabotna drainage district has finished a big job of ditching and will either sell or lease their machine or keep it for further work. The ditches constructed in this district this year certainly paid for themselves on the occasion of the last big rain, where it was estimated that 11 inches of rain fell in 24 hours. Practically all of the water was off in three or four days when, old residents, say, that without ditches much of the water would yet remain on the farms. The crops on the Missouri bottom this year in this district, while not the best, are probably worth more than any crop ever raised there previously.—Rock Port correspondent in Tarkio Avalanche.

Seeing northwest Missouri consisted mostly of hitting the high places and required fifteen stitches to repair the damage for a Topeka man near Tarkio last week. Four members of the Topeka Chamber of Commerce were driving through Atchison county and took a chuck-hole on high with the result that E. L. Overton was thrown to the top of the car where he got a broken nose and a lacerated scalp.

The livestock buyers paid to the farmers of this community $16,500 for cattle, hogs and sheep the first of the week. Thirteen carloads left here on Sunday and Monday.—Gallatin North Missourian.

Bars of Sousa's "Stars and Stripes Forever" march and other band music and familiar tunes. The dancing of two members of the troupe was also very popular.

The second part of the program was the illustrated lecture on "Rambling Through Paradise-Hawaii," by Miss Clemens. The lecture was well delivered and well received, and the pictures were beautiful. Something unusual in the way of motion pictures were those shown of a volcano in action.

The afternoon program consisted of music by the Hawaiians and a lecture by Hervey McCowan on "Kings and Queens—Crowned and Uncrowned." The lecture was well phrased and well illustrated, but Mr. McCowan is by no means an orator and many in the audience wre disappointed. The central idea of the address was that men and women are the real kings and queens of the world, should treat themselves as such, and should be so considered by others. He emphasized the maxim that man gets out of life just what he puts into it

to be due in the Balkans in the near future.

"The war is now costing the chief belligerents more than $142,000,000 per day or $6,000,000 per hour including the night time and Sundays. Uncle Sam has hardly begun to load his rifles but is already spending more than $27,000,000 per day. A few days ago Congress appropriated $640,000,000 for an aeroplane fleet. A few years ago that amount was sufficient to pay all the running expenses of the government for a whole year and yet the bill passed the House in two hours and the Senate almost as quickly, and, in my judgment, it was the best day's work this Congress has done."

BAND IS STILL IN ST. JOSEPH

Concerts Given at Lake Contrary Monday and Tuesday Nights—Will Leave in A Few Days.

The Fourth Regiment band is still in St. Joseph today and it is not known at this time just when they will entrain for Camp Clark at Nevada. The delay is caused by the failure of supplies to arrive there. The supply company of the Fourth was ordered to proceed to Nevada last night.

A band concert by the regimental band and guard mount was given this morning at the Central high school campus in that city. The band also gave concerts at Lake Contrary Monday and Tuesday nights. The following is what the News-Press says about Monday's concert.

A goodly number of persons went to Lake Contrary Park last night to hear the concert by the Fourth regiment band, notwithstanding the clouds and the cool atmosphere.

The first part of the program was listened to with close attention and each number was enthusiastically applauded. Harold E. Maulding is the leader, and he was highly complimented by the crowd last night. About the time the intermission was reached drops of rain began to fall and soon the water was coming down at a lively rate. Everybody hurried for the trolley cars, and the park was soon deserted.

The band boys are quartered in the gymnasium of the high school building.

LACK OF EQUIPMENT

Has Held Up Indefinitely Mobilization of the Missouri National Guard.

Special to The Democrat-Forum.

Nevada, Mo., Aug. 8.—Lack of tentage and other equipment has held up indefinitely mobilization of the Missouri National Guard from their home stations to the state concentration camp here. Officers expected militiamen to begin to arrie here last Monday but inability of the war department to furnish equipment halted this.

"It is impossible to say when the necessary equipment will be received," said Brig. Gen. Harvey C. Clark, commanding the Missouri Guard. "Until we are given definite information the various units will not be moved from their home stations."

A special train schedule for troops has been worked out by Major Adams and the War Board of the Missouri Pacific railroad. Each unit will detrain at the camp and march to its assigned location in the tent city in the same order in which it entrained for Nevada. This is expected greatly to expedite establishment of the camp.

After Coal Prices.

Special to The Democrat-Forum.

Chicago, Aug. 8.—Half the governors of the sixteen middle western states today had accepted the invitation of the Illinois Council of Defense to attend or send a representative to a conference to be held here August 16, to adopt some concerted action to reduce coal prices. Among the governors who accepted were Governor Gardner of Missouri and Governor Capper of Kansas.

John G. Whitmer has just sold 1,000 bushels of corn at $2.15 a bushel —$10.75 a barrel. That is the highest price that corn has ever brought in Missouri, so far as the writer has been able to ascertain. — Richmond Missourian.

SICK WOMAN HAD CRYING SPELLS

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Enhaut, Pa.—"I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would run and lock the door so they would not see me. I tried several doctors and they did not help me so I said to my mother 'I guess I will have to die as there is no help for me.' She got me one of your little books and my husband said I should try one bottle. I stopped the doctor's medicine and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work."—Mrs. AUGUSTUS BAUGHMAN, Box 86, Enhaut, Pa.

Why will women continue to suffer day in and day out and drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

The Hopkins Journal reports that O. Taking Things *for* Granted

TAKE nothing for granted. The cup of failure is waiting for the man who is always taking things for granted

He trusts everyone but himself.

Few things just "turn up," but are brought about by the ingenuity and cleverness of someone.

Take nothing for granted, a bank account will not "turn up," you must give it a start and then back it up.
